

Introducing the latest line of Living Statue creations from Sonic Flower Entertainment: the Winter Athlete Series. Representing three of the most cherished Canadian Winter Sports, our Snowboarder, Skier and Hockey Player make wonderful ambiance at your next Holiday/Olympic themed function. Often drawing a crowd, spectators will not be able to tell that the statues are alive! until the move in unison into a different pose. While you are visiting our statues you can read over an information plaque mounted on a stand with some fun/interesting facts about the history of the sport it corresponds to as well as a few details about relative Olympic events for that sport during the games in 2010.

Colour schemes and equipment choice have been carefully selected. Other accents such as artificial snow scattered about the statue and special lighting can also be included. Featured at the Fairmont, Whistler this New Years Eve, our Statues are on the move for the 2010 Olympics. Come have our Winter Sport Athletes greet your guests at your next function.
